New York's Hospitals and Health Systems Improve the Economy and Community

Economic and Community Benefits

Economic activity
$250,000,000

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 9.6% of the state's entire gross domestic product.[1]

Jobs generated
1,200

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York.[2]

Tax dollars generated
$38,000,000

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.[3]

Payroll expenditures
$76,000,000

New York hospitals' #1 investment is in their people, including direct salary and benefits to their employees.[4]

Patients Served

People admitted to hospitals
600

Hospitals serve patients in their communities 24/7, 365 days a year.[4]

Patients covered by Medicare and Medicaid

At this hospital, Medicare and Medicaid patients make up:

- **80%** of all people admitted

77% of this hospital's patient service revenue comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.[4]
