**HANY'S SOLUTIONS, INC. SELECTS TEAM HEALTHCARE TO OFFER
INTERNATIONAL NURSE STAFFING TO HOSPITALS AND NURSING
HOMES**

ALBANY, N.Y. — HANY'S Solutions, Inc. (HSI), a subsidiary of the Healthcare Association of New York State, and Team Healthcare Staffing (THC), LLC, announced today that they have entered into an agreement to market THC's international staffing services to health care facilities in New York State. HSI brings this service to HANY'S' members to address the critical nursing shortages that impact hospitals every day.

Team Healthcare offers a solution to the growing shortage of registered nurses that is both cost-efficient and long-term. "THC's unique model eliminates the challenges that most health care organizations experience with foreign nurse recruitment initiatives," said Michael Inicki, Vice President and Chief of Operations of HANY'S Solutions, Inc. "We are extremely impressed with the manner in which THC recruits, educates, and prepares nurses to deliver the highest quality patient care."

Team Healthcare stands out among other international recruitment agencies because of its in-house immigration expertise, proprietary schools, curricula developed in conjunction with U.S. hospitals, cultural transitioning relocation services, and no upfront costs. With a talent pool of over 750 nurses and a 95% National Council Licensure Examination (NCLEX) pass rate, Team Healthcare is positioned to help health care facilities face the ongoing nursing shortage.

“Team Healthcare is thrilled to be selected as a preferred vendor by HANYS Solutions and recognized for our efforts to introduce a new era of providing an optimal international health care staffing solution to U.S. health care institutions,” said Suresh Vasu, President and Chief Operating Officer of Team Healthcare. “As the premium provider of quality international health care staffing services, we consider this recognition as a strong endorsement of our global supply methodology and stringent process management.”

About HANYS Solutions, Inc.
