

# Infection Control and Epidemiology Basics

Virtual program | October 2020

Presented by

in collaboration with

HANYS, in collaboration with the New York State Association for Professionals in Infection Control and Epidemiology Coordinating Council, invites new infection preventionists and those interested in healthcare infection control to attend our comprehensive virtual training incorporating both live webinars and on-demand sessions.

During this training, attendees will establish a strong foundation on healthcare infection control and epidemiology in New York state. Participants will hear from experts and attend sessions on topics such as surveillance; outbreaks; risk assessment and plan development; and cleaning, disinfection and sterilization for healthcare settings across the care continuum.

## Live webinars

Each live webinar will include time for conversations with faculty and networking with colleagues.

### Webinar #1: Building a Foundation – Wednesday, Oct. 7

1 – 4:30 p.m.

Session topics:

- Infectious Disease Epidemiology
- Organisms Common to the Healthcare Setting – Bacteria and Viruses
- Emerging or Novel Infections

### Webinar #2: Surveillance Essentials – Wednesday, Oct. 14

1 – 4 p.m.

Session topics:

- Outbreaks
- Surveillance and Reporting

### Webinar #3: Infection Control Fundamental Program Elements –

Wednesday, Oct. 21

1 – 4 p.m.

Session topics:
