

#### **Peconic Bay Medical Center**

New York's Hospitals and Health Systems Improve the Economy and Community

# Economic and Community Benefits

# **Economic activity** \$661,000,000

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 10.3% of the state's entire gross domestic product.[1]

# **Payroll expenditures** \$271,000,000

New York hospitals' #1 investment is in their people, including direct salary and benefits to their employees.[4]

### **Jobs** generated 3,600

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York. [2]

# Tax dollars generated

\$132,000,000

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.[3]

#### **Community benefits and investments**

\$52,000,000

Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly and under-served communities; and continuously invest in many community health initiatives. [5]

### ♣ Patients Served

**Outpatients** provided care

138,000

People treated in the emergency room

40,000

People admitted to hospitals

11,000

**Bahies** delivered

500

Hospitals serve patients in their communities 24/7, 365 days a year. [4]

#### Patients covered by Medicare and Medicaid

At this hospital, Medicare and Medicaid patients make up:

- 74% of all people admitted
- 69% of all outpatients provided care

41% of this hospital's patient service revenue comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs. [4]
