New York's Hospitals and Health Systems Improve the Economy and Community

### Economic and Community Benefits

#### Economic activity

**\$534,000,000**

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 10.3% of the state's entire gross domestic product.<sup>[1]</sup>

#### Jobs generated

**3,100**

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York.<sup>[2]</sup>

#### Tax dollars generated

**\$121,000,000**

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.<sup>[3]</sup>

#### Payroll expenditures

**\$194,000,000**

New York hospitals' #1 investment is in their people, including direct salary and benefits to their employees.<sup>[4]</sup>

#### Community benefits and investments

**\$37,000,000**

Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly and under-served communities; and continuously invest in many community health initiatives.<sup>[5]</sup>

### Patients Served

#### Outpatients provided care

**830,000**

#### People treated in the emergency room

**26,000**

#### People admitted to hospitals

**5,600**

Hospitals serve patients in their communities 24/7, 365 days a year.<sup>[4]</sup>

#### Patients covered by Medicare and Medicaid

At this hospital, Medicare and Medicaid patients make up:

- **84%** of all people admitted
- **74%** of all outpatients provided care

**85%** of this hospital's patient service revenue comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.<sup>[4]</sup>
