New York's Hospitals and Health Systems Improve the Economy and Community

Economic and Community Benefits

Economic activity \$7,069,000,000

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 10.3% of the state's entire gross domestic product.^[1]

Payroll expenditures \$2,898,000,000

New York hospitals' #1 investment is in their people, including direct salary and benefits to their employees.^[4]

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York.^[2]

Community benefits and investments \$744,000,000

Tax dollars generated \$1,725,000,000

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.^[3]

Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly and under-served communities; and continuously invest in many community health initiatives.^[5]

Outpatients provided care **984,000**

People treated in the emergency room **258,000**

People admitted to hospitals 87,000

Babies delivered 9,500

Hospitals serve patients in their communities 24/7, 365 days a year.^[4]

Patients covered by Medicare and Medicaid

At this hospital, Medicare and Medicaid patients make up:

- 66% of all people admitted
- 59% of all outpatients provided care

39% of this hospital's patient service revenue comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.^[4]

This report includes data from the following:

- Long Island Jewish Forest Hills
- Long Island Jewish Medical Center
- Long Island Jewish Valley Stream
