### Patients covered by Medicare and Medicaid

In this district, Medicare and Medicaid patients make up:

- **76%** of all people admitted to hospitals
- **67%** of all outpatients provided care

**48%** of hospital patient service revenue in this district comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.<sup>[4]</sup>
