

39<sup>th</sup> Senate District | Robert Rolison

New York’s Hospitals and Health Systems Improve the Economy and Community

Economic and Community Benefits

**Economic activity**

**\$4,901,000,000**

The economic activity generated by hospitals through jobs and the purchase of goods and services makes up 10.3% of the state’s entire gross domestic product.<sup>[1]</sup>

**Jobs generated**

**15,000**

Hospitals and health systems are often the largest employers in communities, generate many more jobs and are top 10 private sector employers in every region of New York.<sup>[2]</sup>

**Tax dollars generated**

**\$742,000,000**

New York hospitals generate significant tax dollars and stimulate the economies of local communities and the whole state.<sup>[3]</sup>

**Payroll expenditures**

**\$1,299,000,000**

New York hospitals’ #1 investment is in their people, including direct salary and benefits to their employees.<sup>[4]</sup>

**Community benefits and investments**

**\$297,000,000**

Adhering to their charitable mission, hospitals cover the cost of care provided to people in need; subsidize care and services to low-income, elderly and under-served communities; and continuously invest in many community health initiatives.<sup>[5]</sup>

Patients Served

**Outpatients provided care**

**845,000**

**People treated in the emergency room**

**207,000**

**People admitted to hospitals**

**65,000**

**Babies delivered**

**5,500**

Hospitals serve patients in their communities 24/7, 365 days a year.<sup>[4]</sup>

**Patients covered by Medicare and Medicaid**

In this district, Medicare and Medicaid patients make up:

- **71%** of all people admitted to hospitals
- **57%** of all outpatients provided care

**43%** of hospital patient service revenue in this district comes from Medicare and Medicaid. This is a result of the large volume of services being reimbursed by Medicare and Medicaid, which do not cover the cost of care, driving significant underpayment from these public insurance programs.<sup>[4]</sup>

# District Hospitals

---

This report includes data from the following:

- MidHudson Regional Hospital of Westchester Medical Center<sup>‡\*</sup>
  - Montefiore St. Luke's Cornwall Hospital
  - Vassar Brothers Medical Center
- 

## Data sources:

[1] Data are mainly from 2023 New York state hospital cost reports and the 2022 RIMS II multipliers. The New York State GDP is from the Bureau of Economic Analysis.

[2] Data are mainly from 2023 New York state hospital cost reports and the 2022 RIMS II multipliers. Private sector employment information is from the NYS DOL.

[3] Data are mainly from 2023 New York state hospital cost reports and state/federal tax tables.

[4] Data are mainly from 2023 New York state hospital cost reports.

[5] Data are from 2022 IRS form 990 Schedule H, reported by hospitals.

---

<sup>‡</sup> Due to its inherent safety-net role, this public hospital is exempt from reporting community benefit and investment activity to the federal government. As a result, millions of dollars for these commitments are not included in the data shown.

\* The data for this hospital reflect consolidated health system results.
